SUMMARY

My name is Aqsal Ahmed. I am a junior developer with hands-on experience in web design and development that I've accumulated over the past two years. As a creative professional, I enjoy the process of creating dynamic, user-friendly websites that are tailored to my clients' needs. I am also an astute problem-solver who is ready to use my skills to contribute to your impactful projects in a professional environment.

In my web design work, I use e-commerce platforms and have a strong grasp of WordPress and front-end design. I also have knowledge of backend integration. I have experience with other areas of computer science, such as Office Automation, Database Management, and AI, among others. Finally, in addition to English, I am fluent in Urdu and Sindhi.

AI suggestion 1:

An ardent developer with a strong foundation in front-end web development and design, well-versed in WordPress and Shopify. Demonstrated expertise in crafting responsive websites and integrating back-end systems, enhanced through academic and freelance experiences. Possesses a keen interest in utilizing problem-solving skills to innovate user experiences through e-commerce and machine learning applications. Deeply motivated by the opportunity to contribute to projects focused on technology and creative solutions.

AI suggestion 2:

A software development professional with 5 years of experience in web development and database management, expert in front-end development and AI integration. My key achievements include developing an AI-powered image generator website and successfully implementing sensor-based IoT systems for data collection and communication. Seeking a Front End Developer position at your esteemed company, where I bring my web development and problem-solving skills to support your mission of creating innovative digital solutions.

EXPERIENCE

Office Automation Assistant

Office Automation

01/2021 - 12/2021 Shikarpur, Sindh, Pakistan

EXPERIENCE

Student Developer

Academic Courses

📅 01/2022 - 12/2022 📍 Shikarpur, Sindh, Pakistan

Educational experience focused on practical applications of academic learning

- I have completed my formal education and am eager to transition from school to a full-time career. I am seeking an entry-level position at a well-established firm where I can develop the practical skills I have learned and eventually become a fully competent programmer. I look forward to becoming an active member of your team. My skill set includes:

- * Programming languages: Java, Python, HTML, CSS, and JavaScript.

- * Operating Systems: Android, Ubuntu, and Windows.

- * Databases: PostgreSQL, MySQL, Oracle, and MongoDB.

- * Project Management: Git.

- * Programming Methodology: Agile.

- Developed skills in Database Management Systems
-

Developer

Data Base Management System

📅 01/2023 - 12/2023 📍 Shikarpur, Sindh, Pakistan
